Market leaders in product and technology development				

Improve Workflow and Patient Procedures, While Reducing Risk of Patient Harm

Challenged by state and federal requirements and limited resources, many pharmacy professionals need simple solutions to help them work at their best, assuring both efficiency and patient safety.

That's why Standard Register Healthcare offers an extensive line of laboratory system, alert and communication labels to help improve patient care, reduce costs and enhance operational efficiencies across your healthcare enterprise.

SYSTEM-COMPATIBLE: A wide variety of stock all-purpose Laser, Thermal and EDP labels in standard sizes. Custom labels are also available.

COST-EFFECTIVE: High-quality for optimal performance and competitively priced.

VERSATILE: Message and alert labels, suitable for a wide variety of labeling applications — mailing, shipping, patient identification and general purpose labeling.

Our Goal is to Provide Quality Label Solutions To:

- Keep workflow organized and hospital staff well-informed
- Secure and track and document samples
- Comply with regulatory requirements
- Improve the efficiency of your organization
- Reduce errors and enhance patient safety

Supporting Joint Commission Patient Safety Goals

- Goal 1** Improve the accuracy of patient identification
- Goal 2** Improve the effectiveness of communication among caregivers
- Goal 7** Prevent Infection

Whether your laboratory information system is Meditech, Sunquest, or Cerner, we offer labels to help improve patient care quality, reduce costs and enhance operational efficiencies.
